US ENGINE PRODUCTION, MI

PRESS RELEASE

US ENGINE PRODUCTION, MI IS A CERTIFIED SMALL BUSINESS IN THE U. S. GOVERNMENT'S SYSTEM FOR AWARD MANAGEMENT (SAM)

Vassar, November 26, 2013: US Engine Production, MI (USEP) today announced it will be able to bid on Official U.S. Government contracts with its acceptance in to SAM as a qualified small business.

USEP now granted use of SAM's federal procurement systems.

"U. S. Engine Production MI, Inc. has achieved certification as a Small Business on the Federal Government's System Acquisition Management website (SAM.GOV). This will allow USEP to bid on all federal government opportunities for small businesses, including those set aside specifically for small businesses. These opportunities include: Department of Defense, Homeland Security, Department of Transportation, Federal Aviation Administration, National Park Service, the Forestry Department, as well as all other government agencies." said Joseph Tencza, Operations Manager of USEP's Vassar facility.

Tours of the new Michigan facility are available by request and visit www.usepinc.com for all updates.

Headquartered in Vassar, MI, USEP is one of the United States leading engine rebuilding and vehicle repowering manufacturer specializing in Diesel Engines. USEP's sister company Advanced Vehicles Assembly, Inc. (AVA) specializes in commercial and military vehicle powertrain installations. This includes upgraded high performance engines, transmissions, cooling systems and suspensions. Both USEP and AVA are located in the new 150,000 square foot Michigan facility."
